Update of the ACMC Near Term Motorcycle Safety Efforts:

Beta Test Motorcycle Club-like Facility at MCB, CamLej

Background

- Sept 2009, CMC(SD) attended a motorcycle safety update meeting with General Amos in which he tasked MCB, CamLej to establish a “beta test” motorcycle club facility operated and staffed by qualified motorcycle maintenance and operations personnel.
- Facility is to include meeting and maintenance spaces

Maintenance Spaces

- MCB, CamLej Auto Hobby Shop (AHS) has in place:
  - Three Certified motorcycle mechanics
  - One bay with lift dedicated for motorcycles
  - Motorcycle-specific tools, fluids, filters etc
- AHS offers quarterly Basic Motorcycle Maintenance Classes covering:
  - engine oil and filter, air filter, spark plugs, final drive, brakes, clutch, cooling system, throttle, suspension, tires, etc
- Motorcycle throughput at this facility is 1-2 per day

Club “Meeting Place”

- The Ground Safety for Marines Classroom, adjacent to a MSF Range, has been identified
  - 25'x60' re-locatable facility
  - Classroom easily transformed into a lounge-like facility and re-converted back to a classroom
  - Equipment currently available or under installation:
    - 3 Televisions (large center mounted & two smaller side mounted) along with projection equipment
    - 30 computer terminals (all network enabled)
    - DVD/Video, Multi-media Podium, “Smart Board” and Surround Sound System

MCIEAST Goals

- Near term:
  - Dedicate 1-2 additional AHS bays for motorcycles; install additional lifts & purchase additional motorcycle tools
  - Transform the GSM classroom into a club-like facility, installing carpet, motorcycle posters, furnish with couches, chairs, lamps, large TV and sound system
  - Allow simple maintenance at the facility

- Long term (after a review of the usage) :
  - Possibly construct a new stand alone facility allowing motorcycle clubs to meet, work on their motorcycles (tools, lifts, etc), view training video's, conduct classes, and display PPE
  - Operated by qualified motorcycle maintenance and operations staff
